

Nozzles for Denso® Common Rail Injectors suitable for many Japanese vehicles

In late 1995, Denso® launched its first common rail system and it continues to develop and improve it. In fact Denso® introduced in the European market in June 2002 a 1800-bar common rail system. Denso®'s common rail system achieved a high injection pressure and five-time multiple injections at a high accuracy. This system comfortably cleared Euro 4 emission regulations without a diesel particulate filter.

In Europe, many vehicles like Primera, Almera, Tino, and X-Trail of Nissan®, MPV and Mazda6 of Mazda® and Avensis of Toyota® are equipped with this system. In Japan and in many other countries Hilux and Prado of Toyota® and light truck ELF of Isuzu® are equipped with this system.

Check out our nozzles for these injectors.

COMMON RAIL NOZZLES (suitable for DENSO®)

Seven Code	Stamping	Part Number	Main Applications
73815	ND-DLLA144P 720	093400-7200
