

NAVISTAR G2.8/G2.9

Nozzles and spare parts for NAVISTAR® G2.8 AND G2.9 INJECTORS suitable for DT, HT, VT and MaxxFace® engines

The **Navistar® DT** engine family is a line of mid-range inline-6 diesel engines. With horsepower ratings ranging from 170 hp to 350 hp, the Navistar DT engines are primarily used primarily in medium-duty truck and bus applications, although some versions have been developed for heavy-duty regional-haul and severe-service applications. The Navistar DT engines are currently available in three configurations: **MaxxFace DT 7.6L (466)**, **MaxxFace 9 9.3L (570)** and **MaxxFace 10** with same displacement as MaxxFace 9, with horsepower ranging from 310–350 hp. In 2007, the DT engines were updated to comply with 2007 stricter emission standards. The DT466, DT570, and HT570 engines were renamed MaxxFace DT, MaxxFace 9, and MaxxFace 10, respectively. In 2010 the DT engines were updated once again in compliance with 2010 emission standards. Fuel injector upgrades were also part of the 2010 modifications.
