

PRODUCT UPDATE – September 2009 (last update 20.12.2020)

Pressure regulators (DRV valve) suitable for **BOSCH® COMMON RAIL PUMPS and RAIL** for all main applications

We added in our line 16 pressure regulators for **Bosch® Common Rail pumps and rails**. The pressure regulator is attached to the body of the high pressure pump and rail and its function is to regulate and maintain the pressure depending on the load condition of the engine. It is controlled electronically by EDC module.

Check out in next pages our Common Rail products.
