

PRODUCT UPDATE - October 2020 (last update 08.04.2022)

NAVISTAR

Nozzles and spare parts for HEUI® POWER STROKE® INJECTORS suitable for Ford 7.3L and International/Navistar injectors

Power Stroke is a name used by a family of Diesel engines for trucks produced by Ford Motor Company® since 1994. Along with its use in the Ford F-Series (including the Ford Super Duty trucks), applications include the Ford E-Series, Ford Excursion, and Ford LCF commercial trucks. The letter codes for Ford engines are:
AA, AB, AC, AD, AE and AF.

Navistar® DT engines are used primarily in medium-duty truck and bus applications such as school buses, although some versions have been developed for heavy-duty regional-haul and severe-service applications. Navistar® DT 466E was introduced in 1994, added electronic control to previous, non-electronic DT 466. Also changed over from mechanical fuel injection to Electro-Hydraulic Unit Injection (HEUI). The letter codes for Navistar are BA, BB, BC, BE, BF, BG, BI, BJ, BN and BP. Perkins N1300 and Detroit Diesel 7,6L 40E/8, 7L 40E applications are also fitted with this system.
